Westermeyer Industries Adds Air Separator to Product Lineup

BLUFFS, Ill.— Westermeyer Industries focuses a great deal of resources on product design and development, and the company recently announced the launch of a new air separator for use in the commercial HVAC industry.

Westermeyer's air separators are designed to efficiently remove air from water in various HVAC systems over a wide range of operating pressures and flows. The product is constructed according to ASME Section VIII code and is rated for 125 psig working pressure up to a maximum operating temperature of 375 F. The air separators are available in pipe sizes from 2" to 8" for a wide range of applications.

To learn more about Westermeyer Industries' air separators, view the company's online catalog at www.westermeyerind.com/ or call 217.754.3277.

Westermeyer Industries designs, manufactures, and distributes high-quality commercial components and accessories for the air conditioning and refrigeration industries. More than just a supplier, the company strives to be a component and accessory problem-solver. This "can-do" attitude permeates all Westermeyer Industries projects and is continually demonstrated through the company's commitment to engineering creativity and design ingenuity.
