**Westermeyer Industries offers Y strainers manufactured from brass**

Bluffs, Illinois—Westermeyer Industries is proud to announce that it now supplies the Y896 series of brass Y strainers. These brass Y strainers are priced competitively and delivered on time, and are suitable for any fluid that is not corrosive to brass.

All Westermeyer Industries Y strainers are designed to handle a minimum of 500 psig and can be rated up to 700 psig, if necessary. They have a temperature rating of -20°F to 200°F. Westermeyer Industries Y strainers use a 100 mesh removable stainless steel screen that can be reattached after cleaning, and come with a removable cap that is sealed with a standard neoprene O-ring.

To learn more about Westermeyer Industries Y strainers, view our online catalog at [www.westermeyerind.com/catalog.htm](http://www.westermeyerind.com/catalog.htm) or call us at 217.754.3277.

Westermeyer Industries engineers, manufactures, and distributes high-quality components and accessories. Westermeyer Industries services include product design, prototype building, testing, and manufacturing of components for air conditioning and refrigeration industries worldwide.
