Westermeyer Industries supplies rupture disk assemblies

Bluffs, Illinois—Westermeyer Industries now supplies competitively priced rupture disk assemblies designed to prevent refrigerant from weeping through a component's relief valve.

Westermeyer Industries rupture disk assemblies are factory sealed and ASME Section VIII, Division 1 certified and UD stamped. The assemblies feature brass bodies and a non-fragmenting disk made from inconel disk material. The rupture disk assemblies come in six different standard pressure settings including 235, 250, 300, 350, 400, and 450 psig. Westermeyer Industries can also custom calibrate rupture disk assemblies pressure settings to meet client specification.

To learn more about Westermeyer Industries rupture disk assemblies and assembly accessories, view our online catalog at www.westermeyerind.com/catalog.htm or call us at 217.754.3277.

Westermeyer Industries engineers, manufactures, and distributes high-quality components and accessories. Westermeyer Industries services include product design, prototype building, testing, and manufacturing of components for air conditioning and refrigeration industries worldwide.
