Westermeyer Industries Meets ISO 9001:2000 Requirements

Bluffs, Illinois—Westermeyer Industries announced that it is now an ISO 9001:2000 registered company.

“Ensuring that our company meets and exceeds the industry standards in the area of quality control links directly to Westermeyer Industries’ commitment to continually improve the quality of our products,” said Gary Westermeyer, company president.

ISO 9001:2000 replaces the old 9001:1994 and is rapidly becoming the most important quality standard around the world. ISO's purpose is to facilitate international trade by providing a single set of standards that people everywhere recognize and respect.

Westermeyer Industries engineers, manufactures, and distributes high-quality components and accessories. Westermeyer Industries services include product design, prototype building, testing, and manufacturing of components for air conditioning and refrigeration industries worldwide.
