**Westermeyer Industries manufactures line of six liquid receivers**

Bluffs, Illinois—Westermeyer Industries announced recently that it manufactures a line of six liquid receivers, all competitively priced and all delivered on time, no minimum order required.

With welded construction and powder painting for corrosion protection, Westermeyer Industries receivers are designed to handle a minimum pressure of 450 psig with many models operating at pressures up to 650 psig. All receivers use a swivel valve that can be removed and replaced, and all are designed in accordance with ASHRAE standards.

In addition to the six standard liquid receivers offered in the catalog, Westermeyer Industries can modify any design to meet client specifications.

To learn more about Westermeyer Industries liquid receivers, view our online catalog at [www.westermeyerind.com/catalog.htm](http://www.westermeyerind.com/catalog.htm) or call us at 217.754.3277.

Westermeyer Industries engineers, manufactures, and distributes high-quality components and accessories. Westermeyer Industries services include product design, prototype building, testing, and manufacturing of components for air conditioning and refrigeration industries worldwide.
