

DATE June 2025
REVISED October 2025
REFERENCE Product Name Change
PRODUCT Hantemp Flange Kit

The purpose of this notification is to inform our customers of changes being made to the ordering process of the Hantemp flange kits. These changes have been implemented to shorten the part numbers when ordering to avoid confusion and easier part identification.

Changes made are as listed below:

Hantemp Nom.	WII Nom.	Meaning
SS	S	Stainless steel
UK	K	Union kit (one male and one female flange, hardware included)
MF	M	Male flange
FF	F	Female flange
FL	L	Companion flange kit (contains two male flanges)
SW	W	Socket weld
BW	B	Butt weld
ODS	D	Copper sweat connection
FNPT	N	Female threaded connection

MAX WORKING PRESSURE: 800PSI

*For kits with dissimilar flanges, specify when ordering (e.g. SK-100-W10-B14)

All models are built to schedule 40. Please contact sales if a different pipe schedule is required

For connection sizes see chart on next page
