Dear Customer,

In an effort to increase manufacturing efficiency and reduce complexity in our product line, we've made the decision to consolidate our line of sealed oil filters.

Our current offering includes models rated at either 450 PSIG or 675 PSIG, but with otherwise identical dimensions and connections. Going forward, we will be eliminating the lower-pressure versions and offering only the high-pressure models.

Discontinued		Future	
F3-01	450 PSIG	FH3-01	675 PSIG
F3-02	450 PSIG	FH3-02	675 PSIG
F4-01	450 PSIG	FH4-01	675 PSIG
F4-02	450 PSIG	FH4-02	675 PSIG

These models are fully cross-compatible, with the 675 PSIG versions being entirely suitable for utilization in the lower-pressure applications of the discontinued models.

We appreciate you accommodating this change. If you have any questions about this update, or any current or future orders, please contact your sales representative.

Best Regards,
Adam Chapman

Sales Manager
